

# Cranberry Township Sustainability Report Card

In 2008, Sustainable Pittsburgh completed a Sustainability Assessment for Cranberry Township, which resulted in many recommendations for moving forward. You can use this Report Card to see the highlights of what we have accomplished so far, and what we are still working on.

Name: Cranberry Township Birthdate: 1804 Subject: Municipal Sustainability

SECTOR	RECOMMENDATION	STATUS	NOTES
Audubon	Golf course should pursue Audubon Certification		<i>Cranberry Highlands is now a certified Audubon Cooperative Sanctuary</i>
Waste	Promote and increase recycling in the Township		<i>Cranberry's "Collection Connection" campaign has resulted in a 200% increase in recycling participation</i>
Efficiency	Increase traffic efficiency in the Township		<i>A coordinated traffic system resulted in an 8% reduction in emissions</i>
Energy	Replace existing lights with LED where possible		<i>100% of the Township's traffic lights are brighter, energy-saving LED lights</i>
Water	Limit water consumption due to leaks		<i>System-wide leak detection is performed twice per year and has resulted in repair of public and private leaks</i>
Land Use	Identify spaces to be protected/reserved for future generations		<i>Conserving open space is one of the main goals detailed in the Township's Future Land Use Map</i>
Energy	Reduce fossil fuels being used in Township fleet		<i>Many of the Township's vehicles are now Hybrids, getting 15-20 more MPG</i>
Education	Engage residents in sustainability		<i>Over 115 residents have taken rain barrel classes and 1,500 residents use Township-provided composting bins</i>
